

WASHINGTON, D. C. 20505

26 MAY 1971

Mr. Rod Kroger
Deputy Administrator
General Services Administration
18th and F Streets, NW
Washington, D. C. 20405

Dear Rod,

In response to Region 3's circular memorandum of 21 May notifying Federal agencies of the availability of most of the Federal Highway Administration land adjacent to our property, we are stating in language as strong as we can the importance of the assignment of a major portion of the land to the Central Intelligence Agency. Since you have been good enough to interest yourself personally in this matter we are forwarding to you for your use and, if appropriate, that of the Administrator, a copy of our letter and the enclosed chart.

You will also note that we feel very strongly that the acreage retained by Federal Highway Administration must be repositioned in order to protect our boundary on that side. We have, as I mentioned to you orally, some special security concerns on the Parkway side of our property which would be considerably reduced by our suggested change for FHWA. In addition it would facilitate our continuing to make available to FHWA personnel assigned to Fairbanks Research Station access through our fence for use of our cafeteria.

We are also talking to our OMB contacts and to appropriate staff members of the National Capital Planning Commission.

25X1X8 Your continuing interest will be very much appreciated.

Sincerely,

25X1A

John W. Coffey
Deputy Director
for Support

25X1X8
